EXPERIENCE

GSMI, — UX Designer

February 2023 - PRESENT

Collaborated with the managing partners to design and continuously improve the company website for a start-up safety consulting firm. Utilized user-centered design principles to create an intuitive and user-friendly website. Conducted user research and testing to identify areas for improvement and to validate design decisions.

Michelin, Lexington, SC — Manufacturing Technician

December 2021 - PRESENT

Trained other employees, long-term, to operate machinery, cranes for receiving and offloading, machine maintenance, and IT troubleshooting. Coordinated with admin staff to meet various needs of the plant.

Nyms Compendium, Etsy — Owner

May 2021 - July 2021

Designed, created, and managed online business to sell handmade armor, prop weaponry, furniture, clothing, etc.

Starbucks, Columbia, SC — Bartista/Trainer

November 2017 - August 2018 / January 2019 - September 2021

Trained employees of various positions (barista, supervisor, manager, etc.) to work at multiple store locations. Helped prepare with the opening of other locations.

Mortenson — Inspector/Junior Engineer

August 2018 - November 2018

Inspector and Junior Engineer on a now fully energized wind turbine site. Closely inspected every component of each wind turbine before assembly and once assembled. Worked alongside head engineers in order to assist with paperwork and verification processes. Accompanied head engineers on wind turbine engineering inspections.

Start the UX Design Process: Empathize, Define, and Ideate

Build Wireframes and Low-Fidelity Prototypes

Conduct UX Research and Test Early Concepts

Create High-Fidelity Designs and Prototypes in Figma

Responsive Web Design in Adobe XD

Design a User Experience for Social Good & Prepare for Jobs

Jun 30, 2023

Noah Robison

has successfully completed the online, non-credit Professional Certificate

Google UX Design

Those who earn the Google UX Design Professional Certificate have completed seven courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in UX design. They can complete the design process from beginning to end: empathizing with users, defining their pain points, coming up with ideas for design solutions, creating wireframes and prototypes, and testing designs to get feedback.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
